

SOCIAL MEDIA STRATEGY PLAN FOR NIKE

Rahul Kaushik

INTERNSHIP: DIGITAL MARKETING Organization: CODTECH IT Solutions

Project Scope

The objective of this project was to design a comprehensive social media strategy for Nike. The strategy focuses on identifying the target audience, selecting appropriate social media platforms, planning engaging content, analyzing competitors, and defining measurable Key Performance Indicators (KPIs).

The project demonstrates how a globally recognized brand can use digital marketing techniques to improve customer engagement, strengthen brand awareness, and increase online reach.

Methodology

The project was completed using the following steps:

1. Selected Nike as the brand for analysis.
2. Conducted research on Nike's current digital marketing presence.
3. Identified the target audience and customer persona.
4. Studied competitor brands such as Adidas and Puma.
5. Developed a social media content strategy.
6. Created a sample content calendar.
7. Defined Key Performance Indicators (KPIs) to measure campaign performance.
8. Prepared the report and presentation.

Tools Used

- Microsoft Word
- Microsoft PowerPoint
- Microsoft Excel
- Canva
- Gamma AI
- ChatGPT
- Google Search

Expected Outcomes

- Improved brand awareness
- Increased customer engagement
- Better audience reach
- Higher website traffic
- Stronger customer relationships

Conclusion

This project demonstrates the importance of a structured social media strategy in achieving marketing objectives. By combining audience research, engaging content, and performance measurement, Nike can continue to strengthen its online presence and maintain its leadership in the global sportswear market.
